

## Heffner Stoneworks Planning Guide

Choosing a new countertop for your kitchen or bathroom can be a daunting task. From durability to cost of material as well as how it coordinates with your home's style. The best place to start your selection is to determine what works and what doesn't for your lifestyle and needs.

Are you looking for a low maintenance countertop?

---

---

---

Do you cook with a lot of oils and spices?

---

---

---

Do you have young children in your home?

---

---

---

Will this counter be used every day or just occasionally?

---

---

---

Step 1: Please select some countertop material options you would be interested in

|                      |                          |               |                          |
|----------------------|--------------------------|---------------|--------------------------|
| Quartz               | <input type="checkbox"/> | Porcelain     | <input type="checkbox"/> |
| Granite              | <input type="checkbox"/> | Marble        | <input type="checkbox"/> |
| Post Formed Laminate | <input type="checkbox"/> | Butcher Block | <input type="checkbox"/> |

Step 2: Please select some sink styles that you are interested in

|             |                          |                 |                          |
|-------------|--------------------------|-----------------|--------------------------|
| Single Bowl | <input type="checkbox"/> | Farmhouse/Apron | <input type="checkbox"/> |
| Double Bowl | <input type="checkbox"/> | Top Mount       | <input type="checkbox"/> |

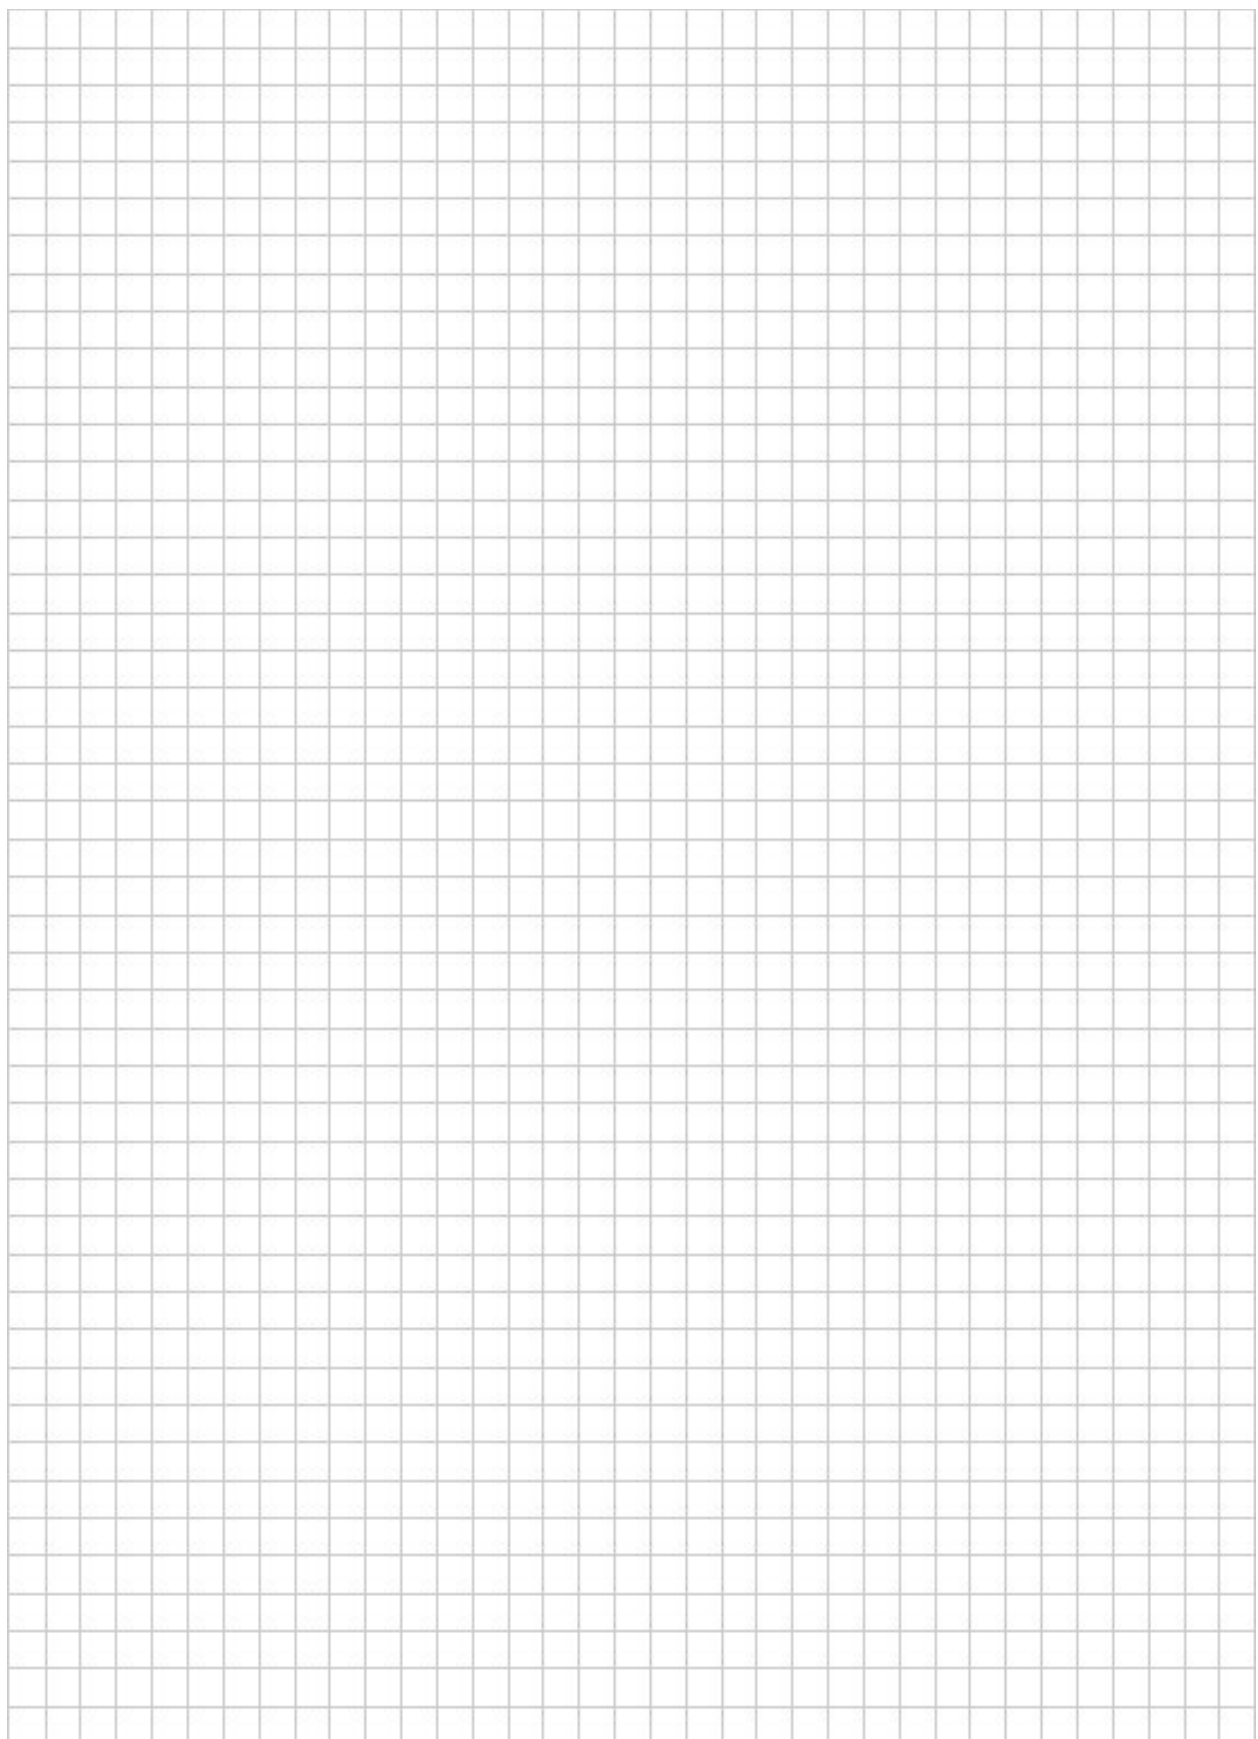

Step 3. Measuring your Space

If the current layout is not changing, measure the current countertop. These dimensions are not meant to be One Hundred percent accurate. We recommend measuring each area twice to ensure the most accurate dimension.

1. Note on the drawing where all door openings and windows are located. Measure these areas from outer casings or door trims.
2. Measure to locate the centers of your sink and appliances.
3. Indicate on the drawings where there are electrical elements, I.e: Light switches and/or plugs

If you are replacing your cabinetry not through Heffner Cabinetry & Stoneworks. Please ask the company you are working with for a floor plan for us to reference.

On the next page, use the sheet of graph paper to help you.

#### Step 4: Appliance Information

If you are purchasing new appliances, model numbers and measurements will be required to ensure a proper fit with the new countertop. If you are keeping your original appliances, then we will only require the measurements.

Please fill out the below section with the applicable appliances.

| Appliance                                                               | Dimensions (WxDxH) | Make/Model # |
|-------------------------------------------------------------------------|--------------------|--------------|
| Range                                                                   |                    |              |
| Gas <input type="checkbox"/> Electric <input type="checkbox"/>          |                    |              |
| Slide In <input type="checkbox"/> Stand Alone <input type="checkbox"/>  |                    |              |
| Cooktop                                                                 |                    |              |
| Gas <input type="checkbox"/> Electric <input type="checkbox"/>          |                    |              |
| Wall Oven                                                               |                    |              |
| Gas <input type="checkbox"/> Electric <input type="checkbox"/>          |                    |              |
| Single <input type="checkbox"/> Double <input type="checkbox"/>         |                    |              |
| Microwave                                                               |                    |              |
| Microwave with Trim Kit                                                 |                    |              |
| Microwave Hood Fan (OTR)<br>Over the Range                              |                    |              |
| Hood Exhaust                                                            |                    |              |
| Vented <input type="checkbox"/> Re-Circulating <input type="checkbox"/> |                    |              |
| Refrigerator                                                            |                    |              |
| Standard <input type="checkbox"/> Panel Ready <input type="checkbox"/>  |                    |              |
| Stand up Freezer                                                        |                    |              |
| Standard <input type="checkbox"/> Panel Ready <input type="checkbox"/>  |                    |              |
| Bar Fridge                                                              |                    |              |
| Standard <input type="checkbox"/> Panel Ready <input type="checkbox"/>  |                    |              |
| Wine Fridge                                                             |                    |              |
| Standard <input type="checkbox"/> Panel Ready <input type="checkbox"/>  |                    |              |
| Dishwasher                                                              |                    |              |
| Standard <input type="checkbox"/> Panel Ready <input type="checkbox"/>  |                    |              |
| Sink                                                                    |                    |              |
| Single <input type="checkbox"/> Double <input type="checkbox"/>         |                    |              |
| Farmhouse <input type="checkbox"/> Double <input type="checkbox"/>      |                    |              |
| Other (specify)                                                         |                    |              |

### Step 5: Special Features

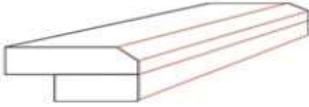

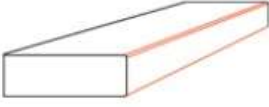

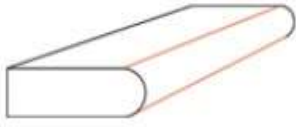

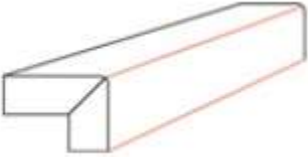

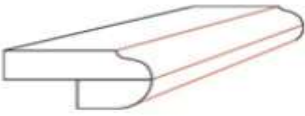

This is where the design process starts to tailor your individual needs. Filling out this information will help our designers tailor your space to your needs.

Check the box of what you would like to see in your spaces.

|                                              |                                                         |
|----------------------------------------------|---------------------------------------------------------|
| Wall Splash <input type="checkbox"/>         | Full Height Backsplash <input type="checkbox"/>         |
| Waterfall Edge <input type="checkbox"/>      | Integrated Drain Board in Sink <input type="checkbox"/> |
| Soap Dispenser <input type="checkbox"/>      | R/O System <input type="checkbox"/>                     |
| Garburator Adaptors <input type="checkbox"/> |                                                         |

### Step 6: Countertop Edge

Check of the edge profile you are interested in.

|                                                                                     |                                                                                      |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| Bevel <input type="checkbox"/>                                                      | Eased <input type="checkbox"/>                                                       |
|  |  |
| Full Bullnose <input type="checkbox"/>                                              | Miter <input type="checkbox"/>                                                       |
|  |  |
| Ogee <input type="checkbox"/>                                                       |                                                                                      |
|  |                                                                                      |

### Step 7: Project Timeline

Please list what phase your project is at and if you have a timeline for your project to be completed.

---

---

---

### Step 8: Budget

Do you have a rough budget for your project? If so, let us know. This way we can make sure to meet as many needs as possible, without going over your budget.

---

Please note that the following scope of work is the responsibility of the client or contractor. Heffner Stoneworks can assist with referring a contractor.

- Plumbing Changes & Hookups
- Installation of Appliances

We thank you for your interest in Heffner Stoneworks and we greatly appreciate your business. To book an appointment with one of our experienced consultants, please call our office or send us an email @ [hswinfo@heffner.ca](mailto:hswinfo@heffner.ca) We look forward to helping you create your dream space!

This document can either be emailed to your assigned consultant or you can bring it with you to your in-person meeting.
